ENGINEERS  
AUSTRALIA

CELEBRATING  
OUR CENTENARY

## Take Part In Our Augmented Reality Experience

Explore the ground-breaking work of **Professor Salah Sukkarieh** from the University of Sydney's Australian Centre for Field Robotics.

Discover his **innovative agricultural robots** and meet the farmers he is working with to change the face of farming as we know it.

Download the app to access content, including;

- Manoeuvre Professor Sukkarieh's Swagbot through an augmented reality world.
- Play You Little Ripper, the farming game.
- Watch the full interview with Professor Sukkarieh and the farmers.
- Read their inspiring story from our Create magazine.

In 2019 Engineers Australia celebrates its Centenary, an important milestone and a chance to highlight the significant role engineering plays in the lives of all Australians.

### How to use the 100 Years EA App

1. Search **100 Years EA** on the IOS or Android App Store and **download for your device.**
2. Place this postcard on a flat surface with even lighting.
3. Open **100 Years EA app** on your device.
4. Once the camera feed is displaying 'searching', align image to camera to initiate experience.
