ANYTHING IS POSSIBLE

**Celebrating the Past,
Present & Future**

**Augmented Reality
E-Waste Recycling
Experience**

Take Part In Our Augmented Reality Experience

Explore **Professor Veena Sahajwalla's** groundbreaking work as Director of the world's first e-waste microfactory, Smart Centre at UNSW.

Discover how Veena uses the science of micro-recycling to show that **everything that exists in a physical form has worth.**

Download the app to access content, including;

- Recycle a smart phone with the Augmented Reality experience, E-Waste Alchemy.
- Watch the full interview with Professor Veena Sahajwalla, featuring Craig Reucassel from War on Waste.
- Read Veena Sahajwalla's inspiring story from our Create magazine.

In 2019 Engineers Australia celebrates its Centenary, an important milestone and a chance to highlight the significant role engineering plays in the lives of all Australians.

How to use the 100 Years EA App

1. Search **100 Years EA** on the IOS or Android App Store and **download for your device.**
2. Place this postcard on a flat surface with even lighting.
3. Open **100 Years EA app** on your device.
4. Once the camera feed is displaying 'searching', align image to camera to initiate experience.
